Many people are very much so . . . tired! I have solved the riddle to the problem of saving you up to 90% on your next stop at the pumps, or even eliminating going to the pumps altogether . . . would you like to learn more?

See, by combining old ideas and very current; Unique technology such as the FUEL SAVER, pioneered by the GIGT SYSTEM (Gasoline Independence Gasoline Technology) System. It is a guarantee, not a possibility to now PRODUCE YOUR OWN GASOLINE for \$.50 cents a gallon and/or completely do away with those rapidly increasing gasoline prices indefinitely!

NOW YOU CAN REDUCE YOUR FUEL COST TO PENNIES ON THE DOLLAR!

Congratulations, I've made it possible for you to produce your own fuel to power your automobile, lawn mower, or generators, Contained in the "STOP BUYING GASOLINE" manual; some of the things you'll learn are:

- How to recycle your used oil to make new for pennies on the dollar.
- How to produce gasoline for \$.50 cents a gallon.
- How to recondition your tired or dead battery to like new.
- Extend 5 gallons into 10 gallons of gasoline without costing you a penny more.
- How to run your lawn mower / car just on pickle juice, oil, or soda pop.
- How to build or convert your car to run on electricity.
- How to run your car on water.
- How to run your car on alcohol, etc. . . ., etc. . . .

Up until now we've all been "brainwashed" to think we just had to pay the high gasoline prices at the pumps with no other alternative and to stay in a J.O.B. (Just Over Broke) to be successful. . . NOT!

However, those days are a thing of the past, because I've just developed the GIGT SYSTEM and the STOP BUYING GASOLINE manual. The manual will guide you through many ways to save and make money in the gasoline industry, (what a wise investment!). You will learn how to install the already completed FUEL SAVER in less than hour or market the manual to make huge amounts of cash to the tune of \$8,903.28 a month...or over \$100,000 a year! The demand for the GIGT SYSTEM is so astronomical, it will bring you more business than you can handle.
